LOTUS BRINGS HOT WHEELS CAR TO LIFE

If you are anything like me, at one point you were a huge fan of Hot Wheels cars. Apparently the people at Lotus are big fans too as they have created a real life version of the Hot Wheels Lotus cars, with everything from the over sized back wheels to the elongated body shape. The car was made to celebrate Hot Wheels 40th Anniversary and was on display at the SEMA Auto Show in Las Vegas.

A 1/64 model of the car will be included in Hot Wheels' 2008 lineup.

Remember:

- The next TTW Club meeting will be at the NEW Hardesty Library just east of 93rd and Memorial. From **12:00 p.m.** until 3:00 p.m., Saturday, **February 9th, 2008.** Our meetings are normally on the 2nd Saturday of each month through the rest of 2008.
- We need your Hot Wheel related articles for the Newsletter or a story about how you started collecting.
- Update your contact info with Paul Bales.
- **Check us out on the web www.microcollector.com**

Lotus Design Hot Wheels® Concept

Group Lotus plc has teamed up with Hot Wheels®, the famous global die-cast brand, to design, develop and produce a Lotus Hot Wheels® Concept vehicle. This 1:5 scale model was on display to the world at the annual SEMA Show at the Las Vegas Convention Centre between 29th October and 2nd November 2007, and a 1:64 scale version of the design will become part of the Hot Wheels® product range in spring 2008.

To celebrate its 40th anniversary next year, Hot Wheels® approached Lotus and other world leaders in the automotive industry with the challenge for each company to produce a vehicle that embodies its own engineering philosophy and brand. The result from Lotus is a stunning open-top two seat sports car concept.
